

## XIV. WRIST SURGERY COURSE

ALL AROUND THE SCAPHOID

Course with Double Workshop from 10.12. - 11.12.2021

IRCAD Institute in Strasbourg

Kunstwerk von DxDiane

Dear colleagues,

due to the Corona Crisis, this years course will be moved entirely to Strasbourg. I am extremely thankful to IRCAD and their team to take over the course.

The Scaphoid is still a challenging argument in wrist surgery. The multitude of the different solutions show that not all problems are solved. Some arguments have clear solutions, other problems have still concurrent techniques. We will discuss these aspects at the IRCAD in Strasbourg.

For selected participants we will continue with our double workshop on cadavers.

The first 40 registered participants will be admitted.

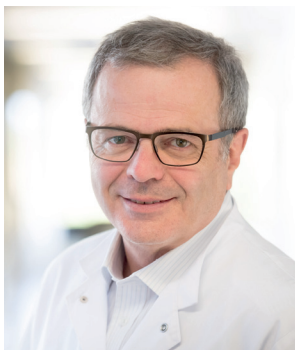

The course will deal with either open or arthroscopic surgery.

Official language will be English. We hope to see you in Strasbourg, for what is sure to be an exciting and productive symposium.

Best regards,

Prof. Max Haerle
